

## J. P. MORGAN BANKING OFFICES DESTROYED BY EXPLOSION; 24 KILLED, HUNDREDS HURT

### OUSTED FIVE UP FOR RE-ELECTION

And Socialist Solomon Seems Assured of Going Back to Legislature—Are Opposed by Fusionist Candidates, Two of Them Women, in Other Districts.

By Telegram to The Freeman.  
New York, Sept. 16.—A special election was held here today in the Bronx and east side to choose successors to the five Socialist state assemblymen who were ousted from the legislature.

In four of the five districts the Republican and Democratic parties have nominated a fusion candidate, while all five ousted Socialist assemblymen are seeking re-election. In two of the districts the fusion nominee against the Socialist candidate is a woman.

In the Seventeenth assembly district, comprising lower Harlem and upper Yorkville, M. Augusta Rosenzweig, a woman lawyer, is the fusion candidate against August Claessens, ousted Socialist. Helen McDermott is the fusion nominee against Samuel Orr in the Fourth assembly district, Bronx.

The campaign has been lively, special emphasis being laid upon the housing crisis, which the next assembly will consider. The Socialist orators have made much of the fact that influential Republicans and Democrats have condemned the assembly's ouster proceedings.

Communists, who are said to have circulated posters asking the working men to boycott the election on the ground it is futile for them to vote for Socialists, Republicans or Democrats, were being sought by the police today.

The re-election of Charles Solomon, Socialist, in the Twenty-third assembly district, was considered probable, since he has divided opposition, J. F. Rice being the Republican and J. Schneider the Democratic opponent.

### HARDING PLANS SIX SET SPEECHES

By Telegram to The Freeman.  
Marion, O., Sept. 16.—Senator Warren G. Harding will make at least six set speeches on various issues of the campaign from his front porch before September 26, when he is scheduled to leave Marion for a short swing through several mid-western states.

The senator's program has been lightened somewhat for the final ten days of the stay at home, allowing him more time for golf and recreation, which he has been neglecting lately.

Tomorrow, "Constitutional Day," the senator will deliver a speech in which he will fire several additional volleys at the Democratic position on the league of nations and stress the need for America to adhere strictly to the constitution.

Delegations are coming to hear it from Ashland, Champaign, Cuyahoga, Cuyahoga, Logan, Ottawa, Putnam, Tuscarawas and other Ohio counties.

On Saturday Senator Harding will address a large number of foreign born citizens from various large cities of the county on the duties of citizenship.

No delegations were due in Marion today, and Senator Harding planned to spend a good part of the time working on the speeches which are coming.

### LIFE LINGERS IN MACSWINEY

By Telegram to The Freeman.  
London, Sept. 16.—Terence MacSwiney, lord mayor of Cork, was in great pain when he began his 55th day of hunger strike in Brixton, Oct. 22 last. His condition was officially reported as "unchanged" at 11 o'clock.

MacSwiney was still unconscious, but a faint light shone from his eyes. He was still weak and completely worn out.

Harvest Festival Tonight.  
The Harvest and Mission Festival of the Spring Street German Lutheran church occurs this evening at 7:30 o'clock. The Rev. H. C. Meyer, deacon, will be the exhibit and sale of limited fruit and vegetables.

Believed to Be Missing Boy.  
The Sanitation police have located a boy and a boy on off a West Street Railroad car at High-Fall Saturday evening. The boy is believed to be Kenneth McNamee, who disappeared from Mt. Vernon last Saturday night.

### CANNON FACE GENOA RADICALS

Workers Raise Red and Black Flags Over Seized Ships—Government Optimistic Despite Seizure of Plants—Say Soviets Are Without Material or Money.

By Telegram to The Freeman.  
Genoa, Sept. 15, via London, Sept. 16.—Artillery was planted today by government troops on the heights overlooking this city where the dock workers have joined the Italian iron and steel workers in demanding the Russian soviet system for the control of industry.

The guns were trained on the ship yards and the factories which were seized by the workmen.

The workers retaliated by hoisting three red flags over ships in the harbor which had been taken over and which are being repaired for service. A group of extremists, who proclaim themselves anarchists, raised two black flags.

It is understood that the government will shortly convene parliament to introduce co-operative laws giving workers due recognition in the control of manufacturing. Officials representing the ministry say that the government is optimistic. They claim that the soviets now controlling iron and steel mills are without funds and raw materials. Premier Giolitti is expected to intervene in the labor situation and attempt to bring about an understanding between the metal workers and the employers.

It is understood that the government will shortly convene parliament to introduce co-operative laws giving workers due recognition in the control of manufacturing. Officials representing the ministry say that the government is optimistic. They claim that the soviets now controlling iron and steel mills are without funds and raw materials. Premier Giolitti is expected to intervene in the labor situation and attempt to bring about an understanding between the metal workers and the employers.

### BLAST VICTIMS CROWD HOSPITALS

200 in Broad Street Hospital Alone—Other News From Financial District As Full Horror of Explosion Becomes Apparent.

By Telegram to The Freeman.  
New York, Sept. 16. (1:05 p. m.)—Dr. Savage of the Broad Street Hospital makes the statement that in the neighborhood of 200 persons were injured in the explosion and have been received at the hospital.

He said that practically every available inch of space in the institution was now occupied by the wounded. The police now also estimate the number of injured at 200. A call has been made for assistance from other hospitals and Wall street is now the scene of rushing automobile ambulances.

Volunteer doctors and nurses began coming into the streets in large numbers to care for the wounded and private automobiles were commandeered by police and by soldiers from Governor's Island to carry the wounded to hospitals.

New York, Sept. 16.—A former high official of New York's police department, who refused to be quoted, at 1:30 o'clock this afternoon, after an investigation of the scene of the explosion at the J. P. Morgan offices, declared that it was the result of a conspiracy.

"The explosion was caused by a time bomb in a wagon load of nitro glycerine set to go off at exactly 12 o'clock," he declared. "This wagon load of explosives was purposely set off directly in front of the Morgan offices."

New York, Sept. 16.—Among the injured are: W. F. McIntyre, Post & Flannery, hand nearly severed. Ernest C. Frisling, lacerated hands.

P. Henschel, badly lacerated head and back. H. A. Serbin, hand and head cut. Alvin W. Knecht, injured about the face.

New York, Sept. 16.—A number of the injured are members of the employed forces of the following brokerage houses:

Brokers, Sturges & Company, Post & Flannery, Kildner, Peabody & Company and Perry & Flannery.

New York, Sept. 16.—According to a clerk in the Morgan office at the time of the explosion three men and one girl employee of the Morgan house were killed. A number of the employees of the Equitable Trust Company were injured and have been taken to the Broad Street Hospital.

New York, Sept. 16.—As an indication of the extent of the blast from the explosion in the street in front of Morgan's Bank, ambulance workers found three young women badly burned in a machine blown at 12 Wall street, almost half a block away. These young women had remained at a machine blown at 12 Wall street, almost half a block away. These young women had remained at a machine blown at 12 Wall street, almost half a block away.

After this discovery ambulance workers canvassed every building in the neighborhood in search of injured instances of injury.

New York, Sept. 16.—The wall of the Morgan building on the Wall street side is pitted with holes as it had been battered by light cannon fire.

### TO THE PEOPLE OF KINGSTON.

The Kingston Chamber of Commerce is about to present its case for a renewal and increase of the membership, work and revenue on which its ability to serve Kingston and everyone in Kingston depends.

It sets forth for your approval a record of definite and practical accomplishment which makes altogether impossible any fair and candid doubt of its value to Kingston.

With respect to the location of new industries employing wholly or chiefly male labor, for which there has been a practically universal and thoroughly justified demand, it points to the new Kattermann & Mitchell Silk Mill, to the location here of L. Barth & Sons, Co., Inc., manufacturing hotel supplies—both entirely the result of the Chamber's efforts—and to the location here of the Apollo Magneto Corporation in which the Chamber had an important part.

All of this has been done without bonus or gift of any kind.

The Chamber of Commerce has conclusively and thoroughly made good on the task most generally and urgently required of it.

It has, furthermore, helped to initiate and secure the organization of the new Catskill-Shawangunk Mountain Association, which is the first organization to work for the promotion of the Catskill-Shawangunk Mountain Region on the prosperity of which much of Kingston's prosperity is founded.

It has secured three auto bus terminal waiting rooms which have already established their usefulness and which are capable of still greater usefulness.

It has helped to secure the Rondout Bridge and has done many other things of value which will be set forth in detail in the course of this membership canvass.

No man can ask today, "What has the Chamber of Commerce done?"

He can see for himself things of great importance that its efforts have brought about.

The Chamber has helped mightily to put fresh energy and confidence into our civic spirit and our civic, industrial and business progress.

It is largely due to the Chamber's efforts that an almost unparalleled opportunity for growth and progress today lies open to Kingston.

But the things done are only a beginning if we are to take advantage of the exceptional opportunity which is now on hand.

It is not enough to bring new industries here. It is necessary that we do everything possible to make Kingston the best possible place in which these industries and our older industries as well may expand, and in which our industrial workers and all of our people may live comfortably and well.

Without lessening interest in industrial growth, it is essential to increase interest in civic improvement for its own sake as well as for its aid in industrial growth, in trade development, in caring for tourists and summer guests and in many other things.

We have proved that Kingston can grow bigger and better through the instrumentality of its Chamber of Commerce.

We must see to it that Kingston does grow bigger and better. We need a strengthened Chamber of Commerce equipped for the full measure of efficient service that Kingston's present opportunity requires.

We want you as a member and we want your active service for Kingston.

Kingston is going ahead. We can't afford to relax and slide back.

We want to take advantage of the momentum now attained to carry us on toward the Kingston that can be—if we all join to make it.

JOSEPH M. FOWLER,  
Chairman Membership Committee.  
SCHUYLER SCHULTZ,  
Chairman Membership Canvass Committee.  
CHARLES R. O'CONNOR,  
President.

### BAKU CONFERENCE STEAMER ODELL MENACE TO BRITAIN TO RUN SOUTH

Gathering of Bolsheviks and Islamites Said to Foreshadow Rising Against Her Rule in Orient.

By Telegram to The Freeman.

Constantinople, Sept. 15, Via London, Sept. 16.—A gigantic upheaval against the British throughout the Orient was foreshadowed through speeches at the Asiatic Bolshevik Congress at Baku, according to information received here today.

The Turkish Nationalist regime, which had large representation at the meeting, issued an official announcement that more than 1,000 delegates were present, representing the entire Islamic world.

The Nationalist communiqué emphasized the fact that the speeches forecast "serious intentions of a great movement against British rule in the Orient."

The Moscow government had representatives at the congress.

In a recent exclusive interview with the International News Service, M. Teicherin, the Bolshevik foreign minister, said Soviet Russia would pursue a free hand for action against British interests in the Orient until Moscow and the British government entered into a direct agreement.

The Cotton Exchange fled from the building.

New York, Sept. 16.—The following announcement is made at the stock exchange:

"The stock clearing corporation directs that there will be no clearing about tonight. Notice regarding day clearing which operations will be resumed later in the day. H. S. Matus, assistant secretary."

The steamer Benjamin D. Odell, of the Central Hudson line, has been chartered by the Old Dominion Line to run between Norfolk, Virginia, and Baltimore, Maryland. The Odell will leave here on September 20, her captain and crew will remain in charge while she is running on the southern route. The Odell is one of the largest river steamers on the Hudson, and has been running between Kingston and New York this season. Norfolk and Baltimore are about one hundred miles apart by the water route.

By Telegram to The Freeman.

New York, Sept. 16.—It was estimated this afternoon that the damage to Morgan Bank would be between \$500,000 and \$600,000.

The huge glass dome over the main floor is shattered. It is also stated that of the employees practically all sustained injuries of some sort and that more than a dozen were badly hurt, while as many as seven were killed.

The bombproof meeting behind the windows of the Morgan office on the Wall street side was wrecked and bent, but it is believed to have saved lives.

Claims Against Morgan.

By Telegram to The Freeman.

New York, Sept. 16.—The time limit for claims against the Morgan government for property damaged in the revolution has been extended a year, from August 30, 1920, to August 30, 1921. It was announced today. The time limit for the payment of back taxes on which has been extended until October 31, 1920. The original time limit was July 5.

### START POURING BRIDGE CONCRETE

Contractor Charles J. Michaud Begins Work of Erecting Bridge Abutments for Rondout Creek Bridge—Getting Ready to Lay Corner Stone Saturday Afternoon.

The first bucket of concrete for the Abbot street abutment for the suspension bridge across the Rondout creek was poured this afternoon by Contractor Charles J. Michaud and from now on the work will be pushed forward as rapidly as possible. All of the lumber needed to make the concrete forms is now on the ground and it is expected that there will be no delay.

The corner stone to be laid by Governor Alfred E. Smith Saturday afternoon will be laid on top of the concrete form in which the concrete was poured this afternoon. A staking will be erected on which the corner stone and those invited to witness the ceremony will stand. Chief of Police J. Allan Wood is making arrangements to keep traffic from interfering with the ceremonies this afternoon and traffic policemen will be stationed on the ground to divert traffic to other streets.

The massive concrete pier on the Esopus side of the creek, which was built under the Duhey administration of the highway department, will be used. About four feet of the top of the pier will have to be removed, and the top of the pier reshaped.

The massive concrete pier on the Esopus side of the creek, which was built under the Duhey administration of the highway department, will be used. About four feet of the top of the pier will have to be removed, and the top of the pier reshaped.

### KILLED AND HURT IN EXPLOSION

By Telegram to The Freeman.  
New York, Sept. 16.—Earliest reports of the Wall street explosion casualties are:

Killed:

William Joyce, clerk in securities department of J. P. Morgan & Company, who lives in Brooklyn, son of P. J. Joyce, for many years connected with the Morgan concern.

Injured:

Edward Towers, 25, Albania avenue, Brooklyn, lacerations.

Margaret Anderson, 1138 Hoe avenue, Bronx, head cut.

John Robinson, 62 Pearl street, legs cut.

George Edward Brown, 157 East 30th street, head and arms cut.

Unidentified woman, skull fractured.

Frank Vaneck, 1584 Mayflower avenue, Westchester, lacerations legs and head.

H. Weill, of Shanghai Bank, cut.

Frederick Franke, Brooklyn, legs cut.

Mary Bishop, 1640 Park Place, Brooklyn, face and body cut.

Patrick Flannigan, 2601 Bainbridge avenue, Bronx, lacerations of the scalp.

Cornelius O'Keefe, Bronx, lacerations of the scalp.

George Williams, 945 St. Nicholas avenue, cuts.

Gustav Ohlson, Jamaica, head and back injured.

Albert Siegel, Glendale, L. I., badly hurt.

George Weibersaich, Brooklyn, arms and head lacerations.

Two sisters named Hunter, in serious condition from cuts.

Irene Sutter, 361 Spencer avenue, New York, cuts and bruises.

The Rev. Dr. Shattuck of the Episcopal Church, a volunteer worker, says he found seven young women, members of his church, in a serious condition at the Volunteer Hospital.

P. W. Joyce, an employee of Morgan's concern, slightly hurt.

Thomas G. Grant, deputy treasurer of the United States sub-treasury, slightly injured while sitting at his desk.

Hit by an Auto.

An automobile driven by Stewart McCollum of 265 Powell avenue, Newburgh, Tuesday night, struck John J. Smith of Janus avenue, Kingston. Mr. Smith, according to his own statement, walked from behind a trolley car, which was standing on the switch at South and Water streets, into the path of Mr. McCollum's vehicle. Mr. Smith, who is an elderly man, was badly bruised about the knee—Newburgh News.

Like To Dance Tonight.

The dance to be held at the Elks club house tonight for Elks and their friends is expected to draw the usual crowd. The dance given by the organization last winter became very popular and it is intended that the opening dance tonight shall be of the same standard as those held heretofore.

Dances at Northbrook Hall.

The Junior Order United American Mechanics will resume their autumn and winter weekly dances on Saturday of this week, which have been temporarily suspended for the past two weeks at Northbrook Hall.

Paige's orchestra has been engaged, which ensures the latest dance selection.

### Wagonload of Explosives on Way to Building Site Believed to Have Been Struck by Auto—Thomas W. Lamont, Only Member of Firm in Office, Unhurt—Exchanges and Business in the Financial District Suspend—Greatest Excitement and Confusion City Ever Saw—Morgan in Europe—Injured May Total 500.

By Telegram to The Freeman.  
New York, Sept. 16.—At least 24 persons were killed and hundreds of others were injured and the offices of J. P. Morgan & Company were wrecked by a gigantic explosion at Wall and Broad streets in the heart of the financial district at noon today.

The origin was believed this afternoon to have been a wagon load of dynamite on its way through Wall street to the excavation site of the new stock exchange building on the south-east corner of Broad and Wall streets.

An automobile is said to have crashed into the vehicle carrying the explosive just as it was between the Morgan offices and the United States sub-treasury where millions of dollars worth of government funds and bullion are stored.

United States troops were rushed to the scene to guard the sub-treasury and the federal reserve bank.

Business was brought to a standstill throughout the financial district. The stock exchange and curb market closed down. Sensational reports of a bomb plot threw bankers and brokers into a panic.

If the explosion was caused by an anarchist's bomb which was intended to destroy the life of J. Pierpont Morgan, it was a futile enterprise, because Morgan is at present in Europe.

All available doctors, nurses and ambulances, including army surgeons, ambulances and Red Cross nurses, were rushed to the scene. A number of the injured died in the Broad Street Hospital.

Pandemonium reigned throughout all lower New York. An immense crowd of tens of thousands of persons jammed the narrow streets in the financial zone.

Scores of police reserves had to fight the crowd back to open the way for ambulances and fire trucks. The Hanover Exchange of the New York Telephone System, which serves the financial district, was put out of commission by the blast, adding to the confusion.

A mountainous pile of debris was thrown up in front of the wrecked Morgan building. Three disemboweled carcasses of horses and the wrecks of half a dozen automobiles cluttered the corner of Broad and Wall street.

Police Commissioner Enright rushed to the scene and took personal direction of the army of policemen. After a superficial investigation, the police commissioner said that he believed a wagon load of dynamite caused the blast.

Mayor Hylan dashed to the scene in his automobile to give such aid as he could to the authorities.

Within twenty minutes after the explosion 15 bodies had been recovered.

So far as could be learned the only member of the Morgan firm who was on the scene was Thomas W. Lamont, and he was in his private office dictating letters and talking with a business caller when the detonation occurred. Lamont at one time lived in Kingston, his father having been pastor of Trinity M. E. Church.

The police estimated that from 200 to 300 persons had been more or less injured. Many of them were pedestrians so slight that they were able to go home or to offices where they are employed for treatment.

Word reached here at 1:30 o'clock that William J. Flann, chief of the United States coast survey, was speeding to New York upon a special train to take charge of the federal end of the investigation.

Stock Exchange Closes.

Trading on the New York Stock Exchange, almost across the street from Morgan & Company, was suspended. At 12:19 o'clock the police announced that at least eight persons had been killed. Sensational rumors were current that a bomb had been exploded.

At 12:18 o'clock the police declared they had positive information that an infernal machine of gigantic power had caused the explosion.

None of the members of the firm of J. P. Morgan & Company were killed. All of downtown New York, but especially the Wall street financial district, was rocked by the terrific concussion.

A great shower of debris and smoke arose from the Morgan offices. Pedestrians in the street, near the

corner of Broad and Wall, were hurled from their feet. A number of them were seriously injured. Rumors of an attempt upon the life of J. P. Morgan caused intense excitement. All available police reserves were rushed to the scene.

Streets Full of Lunch-Carts.

The windows of the Morgan firm, and those of office buildings in the vicinity were smashed and the streets were filled with broken glass.

At 12:15 o'clock the board of governors of the stock exchange ordered the exchange closed.

The explosion occurred during the noon lunch hour when Wall and Broad streets were dense with hurrying clerks and stenographers. All were thrown into panic.

A number of automobiles were parked in front of J. P. Morgan & Company and all were wrecked. After the blast the police commandeered all available private motor cars to transport the injured to hospitals. Hurry up calls were sent into all the nearby hospitals for ambulances.

Many persons were cut by falling glass and debris, but none able to go home to have their burns dressed.

Some of the doctors were rushed into the financial district. A crowd of detectives and policemen was thrown about the corner.

Known as Stanley Smith.  
By 12:30 o'clock the police had learned that a bomb exploded on the (Continued on Page Twelve.)

and petticoats.

# PESKY BED BUGS

Bedbugs lay an average of seven eggs per day. Under favorable conditions they hatch in five days of which two-thirds are females. They mature in about six days and are capable of living four weeks. How many bedbugs would you have in a year if you left one male or two females undisturbed for one year? To rid the pesky bedbugs, you need a preparation that will kill the eggs as well as the live ones. P. D. Q. has been demonstrated by the leading hospitals, hotels and railroad companies as the safest and most economical way to destroy general pests of bedbugs, roaches, fleas and lice. It is the new discovery.

Sold by W. R. Zivings.

# "THE TOP OF THE WORLD"

By ETHEL M. DELL

A stirring drama of the South African Veldt, where primitive passions hold sway—where the wide spaces and elemental forces inspire what is best and worst in man.

Ethel Dell writes fiction the whole world reads. She wrote "The Lamp in the Desert," "Bars of Iron," "The Hundredth Chance," "The Keeper of the Door," "The Rocks of Valpre" and many other notable novels that have held thousands of eager readers spellbound.

Undoubtedly her greatest novel is "The Top of the World." Price \$2.00.

### AT THE THEATERS.

Elise Janis, "Babe" Ruth and a Snubmarine Picture.

The attraction at Keene's tonight is Elise Janis in "The Imp." The story has to do with a wealthy spoiled young girl who develops a mania for crime. The situations through which she travels before reaching her reason furnish plenty of action for a dozen plays. "Babe" Ruth, the phenomenal baseball sensation of today, is also presented in a picture entitled "Over the Fence." A Sunshine comedy, and Gaumont's new weekly are also programmed. Tomorrow and Saturday Rex Beach's famous story of Alaska, "The Silver Horde."

Williamson's thrilling submarine story, "The Girl of the Sea," is the picture at the Auditorium tonight and contains many thrilling scenes both on and under the sea. The story is a stirring drama of love and romance. A Kay Bee western story, "The Better Way," is also featured.

"Hearts of Erin," a romance by Charles Bradley and Lorin Howard, will be presented at the Opera House Friday night. Walter Scantlin's tenor voice is heard in some of the most delightful musical numbers.

The Selwyn's production of the musical comedy success, "Buddies," which will be the attraction at the Opera House, next Monday night, September 20, with the entire New York cast, company and production, proved during its full year in the Selwyn Theater, New York, the cumulative power of a romance that is as fragrant as June, and the music which is altogether charming in its melody.

"The Rose of China," the Chinese musical romance which has been enjoying a phenomenal popularity in every city visited so far this season, will come to the Kingston Opera House Tuesday night, September 21.

### To Find the Gear of Jicycles.

To find the gear of a bicycle, divide the number of teeth in the front sprocket by the number of teeth in the rear sprocket and multiply by the diameter in inches of the rear wheel. For example: Twenty-one teeth in the front sprocket seven teeth in the rear sprocket and a 28-inch wheel. Twenty-one divided by seven equals three; three times twenty-eight is eighty-four—the gear of the bicycle.

With sugar scarce and costly, more and more interest is naturally being shown in that self-sweetened food—

# Grape-Nuts

This ready-to-eat cereal food is abundantly supplied with sugar, developed in the process of making from the choicest parts of wheat and malted barley.

Flavor tells—

Made by Postum Cereal Company, Inc. Battle Creek, Mich.

# ROTARY REWARDS THE DESERVING

Presentation of Prizes a Feature of the Banquet at Cuneo's Lake Katrine Hotel Wednesday Evening.

Mr. Chase Tells of Farm Bureau Work and Aims.

Kingston Rotarians and their friends to the number of over 60 dined at Cuneo's Lake Katrine Hotel Wednesday evening on fried chicken and all the trimmings that go with it. Mr. Cuneo outdid himself in the preparation and serving of the dinner and had there been twice sixty in attendance, none need have gone away hungry.

In the absence of the Rev. Frank B. Seeley and Harry L. Dodge, president and secretary of the club, who were in New York attending a conference of club presidents and secretaries, Vice President Watts presided and C. R. Stull acted as song leader. Nobody had thought of bringing any song sheets, but Mr. Stull has a wonderful memory and proved himself a most industrious and inspiring chorister.

After the dinner eloquent and touching addresses were made by Vincent A. Gorman, John E. Mahai and John H. Gregory in presenting trophies to Mr. Mahar Mr. Watts and Mr. Fleming, justly due these gentlemen for their athletic and artistic triumphs at the recent Poughkeepsie meeting. The prizes were received with expressions of profound gratitude and assurances that no matter what misfortune might overtake the recipients, the treasured gifts could never be sold or pawned.

Ex-Sheriff Philip Schantz was called on for a speech and responded briefly and in a most witty manner giving assurance that he was through with office holding and intended to live the rest of his life by honest work.

F. C. Chase, manager of the Ulster County Farm Bureau, told of the work of his organization in endeavoring to put farming on a better business basis by standardizing crops and marketing. There are, he said, for example, about 80 varieties of corn grown in Ulster county. Of these one must be the best and by a series of experiences the identity of this best variety, best adapted to our soil and climate, is being ascertained. Dairy herds are being tested in order that the cows that do not show a profit may be eliminated. There are 2,000 fruit growers in the county and 1,000 ways of grading and packing fruit. By organizing packing organizations it is hoped to have uniform packing and grading and one brand, so that the brand and grade will mean something, like Sunkist Oranges does. Mr. Chase also touched on the Dairymen's League and the efforts of the dealers to break it up and predicted that in a few years the league would not only be producing and marketing milk at wholesale but would also be retailing it at a fair profit and a great saving to the consumer.

# WORKING GIRL'S CREED

Adopted at Conference Under Y. W. C. A. Auspices.

Much interest has been shown in the Every Day Creed which was adopted recently by representatives of working girls in Ohio and West Virginia at an industrial conference held under the auspices of the Y. W. C. A. at Oxford, Ohio. The creed reads as follows:

"I believe in my job. It is very important. Someone will suffer if I do not perform my work promptly and carefully, and I shall be the loser. My job can be made attractive by punctuality, system, and definite aim, and a high ideal of practical service.

"I believe in the other worker. For her sake I should not accept a low standard of pay or poor working conditions. For her sake, too, I should do all in my power to maintain a high standard of loyalty to the employer. I should give her a cheerful smile and helping hand whenever possible.

"I believe in my employer. He is a human being just as I am. He likes to have things go smoothly and he deserves to have them so. I should do all in my power to help him.

"I believe in myself—in the power that is within me. I owe it to myself to be all that I can be physically, mentally and spiritually. I owe it to myself to be as attractive as possible in manner and appearance.

"I believe in my home. I should protect it by maintaining the single standard of purity, by preparing myself for every homemaking task, and above all, by fitting myself to be the chief educator of my children that may be entrusted to my care.

"I believe in my country. When we all understand the true meaning of the brotherhood of man, it will be the best land in all the world, and the knowledge of the sacredness of the individual will be the law by which we shall all be governed.

"I believe in God. In His infinite love for humanity. Sincerity, honest work, merry laughter, clean play, and unfeigned kindness are all He asks of us."

Pretty Nearly the Right Idea.

It was Anna's first visit to the big city, and when she saw all the innumerable electric lights in the evening she asked her aunt: "Is this trying to make the day longer?"

# DELANO REINTERMENT.

Body of Chief Red Cross Nurse Arrives From France.

Miss Mary E. Ryan, war-time chairman of the Ulster county committee of the Red Cross on nursing, has received the following letter regarding the reinterment in Arlington Cemetery of Jane A. Delano, who died at Savenay, France, April 11, 1919, while director of the department of nurses of the American Red Cross:

The American Red Cross, 44 East 25th Street, New York, N. Y., September 14, 1920.

We Dear Miss Ryan:

The body of Miss Jane A. Delano has arrived in this country and is today being sent direct to Arlington, under the jurisdiction of the war department.

Committee services will be held at Arlington, Washington, D. C., on Saturday, September 18, at 2:30 p. m.

Should any member of your committee wish to attend, they should notify Miss Clara D. Noyes, chairman of the National Red Cross nursing committee, American Red Cross headquarters in Washington, D. C., and be at Red Cross headquarters in Washington, D. C., at 1:30 p. m., on Saturday, September 18, where conveyances will be provided to take them to Arlington.

Flowers should be sent in care of Miss Clara D. Noyes, of Red Cross headquarters, Washington, D. C.

Please transmit the above information to each member of your local committee.

Very sincerely yours,  
FLORENCE M. JOHNSON,  
Director, Nursing Service, Atlantic Division.

# IS NOW IN JAIL.

Ten of Them Charged With Holding Up—All for Grand Jury.

There are now sixteen inmates in the Ulster county jail, all but one being grand jury cases, seven of the prisoners being brought in within two days from Kingston, being alleged hold-up men. There are three other men charged with the same crime awaiting the action of the grand jury, being the ones known as the "Sanguinetti" bandits. Besides those in jail there are others out on bail who are charged with the same crime and will be arraigned by the grand jury, which is likely to be in session for about three weeks. On Monday afternoon next at 2 o'clock the county court will convene and a grand jury will be in attendance.

## SHADY.

Shady Sept. 12.—A very delightful party was given Mrs. Jane A. Keefe at her home Sunday, Sept. 12, in honor of her seventy-fourth birthday. Most useful presents were received. A buffet lunch was served to all. Those present were: Mrs. Jane A. Keefe, Mr. and Mrs. Herbert Keefe and children, George Keefe, Mr. and Mrs. Charles Kimball, Mr. and Mrs. Clarence Snyder and daughter, Gertrude, Mr. and Mrs. George H. Cole and daughter, Elizabeth, Mr. and Mrs. Joseph Lohr and son, William, William Keefe, Mr. and Mrs. George Ross and daughter, Margaret, Mr. and Mrs. Charles Keefe and children. It was a most enjoyable day, all enjoying the afternoon and evening and the happy birthday.

# Cheaper Heating

## But more comfort—how to get it

### DEMONSTRATION THIS WEEK

Many a heating system is worse than a hole in your money pocket, because it makes you pay for heat that you never get. Shovelful after shovelful, ton after ton, you throw the coal into the fire, and yet—the house is never comfortably warm. Heat and money and comfort—all are lost. You sit around uncomfortably, shivering in cold rooms, thinking of the fuel bills you have to pay.

But there's comfort and money saving to be had. Let us tell you about a heating system that comes like a god-send into your house—fills it full of splendid, comfortable warmth, and cuts down your fuel bills from one-third to one-half. It brings back the cheery comfort of summer sunshine on the bleakest winter days, and saves many a dollar you were chalking through the grate.

We can actually show you how to have better heating for less money; how to have perfect comfort at less cost; how to warm up cold corners and cold halls. And we can show you how the whole thing can be installed and put into working order in just one day.

Demonstration all this week. We are giving the best part of this week to introduce this wonderful new-saving Andes System One Pipe Furnace. We would like to demonstrate

Our guarantee. If our Andes One Pipe Furnace does not perfectly heat your room, it will be taken out and the full purchase price refunded.

GENTLEMEN.—F. Rosenkrantz, installed one of our Andes One Pipe Furnaces, No. 210 in the home of six rooms and bath. It has done the work of two stoves and we are well pleased with it. Yours truly, FRANK FALKOWSKI, Kingston, N. Y.

FREE. We will give away absolutely free (value \$6.00) with every Andes System One Pipe Furnace sold during this special demonstration this week only, an Andes Furnace Clock—a high, automatic clock that opens the drafts and heats up the house just before you get up in the morning.

Your opportunity. Don't miss the opportunity. Let us show you this new Andes System One Pipe Furnace. During this week we are making a special effort to explain clearly and carefully just how it guards your family's health; just how it can be installed at practically no cost in only one day; just how it brings a big, generous amount of extra comfort; just how it saves fuel money every day you use it.

Don't forget that winter is coming again with the same old winter troubles which wreck the usefulness of ordinary heating systems. Don't be caught again. This is your chance to prevent it. We guarantee the Andes, anyway, and just coming in to see it doesn't mean that you have to buy.

# WIEBER & WALTER

## Kingston, N. Y.

## MOTORISTS WILL MEET AT DUNKIRK

State Auto Association Convention October 14 and 15—President Robins seeks enactment of Law Making License Necessary For Every Driver in State—State Troopers Make Good Record.

By Telegraph to The Freeman.  
Albany, N. Y., Sept. 16.—President H. W. Robins has issued the call for the seventeenth annual convention of the New York State Automobile Association to be held October 14th and 15th, at Dunkirk, N. Y., the home of the Chautauque County Automobile Club. All business sessions will be held at the Shoreham Country Club, where convention headquarters will be established.

When announcing the convention dates, President Robins issued the following statement:

"The most important business to be considered by the organized motorists of New York state at their seventeenth annual convention will be the means of enacting a law to license every driver of an automobile in this state. For several years each legislature has considered an operators' license law and each time it has died a natural death in the internal affairs committee. Two years ago, as a compromise measure, the operators' license law effective only in New York city was enacted. The time has now come to make that law 100% effective by extending it to the entire state.

New Jersey, Pennsylvania, Massachusetts, Connecticut—everyone of the adjoining states require a license to drive a car. California and Ohio motorists are demanding similar laws. Here in New York, where the congestion of cars is greatest, where the mortality from automobile accidents is highest, where the actual number of cars reach 2,000—here, the only requirement to drive any high or low powered car is an age minimum of eighteen years.

"In New York city the effect of the law is nullified by the provision permitting up-staters to drive in the city for ten days without a license. Fifty per cent of the city drivers take advantage of this provision and do not apply for licenses. Of those that do apply, 25 per cent are rejected as incompetent. I hardly believe all the incompetent drivers are in New York city. At least the grand jury is investigating the automobile accident situation and we may look for some drastic recommendations.

"Two other matters should be seriously considered. Manufacturers should be prohibited from making race tracks out of our highways for publicity purposes—and the judiciary should mete out some jail sentences to drunken motor car joy riders who have recently had an epidemic of serious accidents.

"There are with the exception of the operators' license law, enough laws on our statute books. What we need is continued enforcement by the state troopers and other police authorities of the highway and traffic laws we already have.

"The state troopers have accomplished much this season in law enforcement. On Labor Day one troop alone made 451 arrests for traffic violations. In August, 2,445 arrests were made as compared with 2,712 for the whole year of 1919.

"Decent, law-abiding motorists, members of auto clubs should not tolerate the fellow who habitually breaks the traffic laws."

### OUR DAILY PATTERN.

A Becoming Dress For The Growing Girl.

Pattern 3365 is shown in this model. It is cut in 4 sizes: 6, 8, 10, and 12 years. A 10 year size will require 4 1/2 yards of 25 inch material.

Gingham, seersucker, lawn, linen, serge, gabardine, velveteen, and Jersey cloth are good for this style.

A pattern of this illustration mailed to any address on receipt of 12 cents in coin or 1c and 2c stamps by the Pattern Department, The Freeman, Rondout, N. Y. Be sure to state size wanted.

### Catalogue Notice.

Send 12c in coin or stamps for our up-to-date fall and winter 1920-1921 catalogue, containing 350 designs of Ladies', Misses and Children's Patterns, a concise and comprehensive article on dressmaking, also some points for the needle illustrating 25 of the latest, simple stitches, all valuable hints to the home dressmaker.

### NEW HURLEY.

New Hurley, Sept. 15.—A daughter arrived at the home of Mr. and Mrs. Dan McNamee on Wednesday, September 15. She has been named Mary Frances.

Mrs. Mary DeWitt and Eddie McNamee have returned home after visiting relatives in Jersey City.

Mrs. Mabel McNamee, chairman of the Girls Club at her home last Saturday afternoon. All had a very enjoyable time.

The Ladies Aid Society will meet with Mrs. William Courtney on Friday afternoon, September 17, at 2 o'clock, old time.

A variety show was tendered by Mrs. John Naber, one of the entertainers, on the reopening of the school.

# Fortunes are made by wise INVESTMENT, not by mere SAVING. YOU can prosper with the CORD TIRE INDUSTRY.

## YOU

Should investigate these facts about the great coal saving, warmth-giving

## ROUND OAK PIPELESS FURNACE

### 1. What the Round Oak Does for You:

Heats your entire house, either large or small, upstairs and down, old or new, city or country, flooding it with an abundant supply of pure, warm ever-changing moist air, permanently free from dust, gas and smoke. Safeguards the welfare of your family by warming your home to a comfortable temperature in any weather. Affords most convenient, easiest operated, simply regulated, safest, quickest heating, modern system you can own. Burns any kind of fuel, coal or wood and saves 1-3 to 1/2 of your fuel bill. Saves you many dollars in cost, compared to other types of systems. Increases value of your property more than amount invested in its purchase.

### 2. About Installing Round Oak for You:

Requires no space in rooms, least space in basement, easiest, least expensive, and quickest to install in new or old buildings, does not warm basement enough to necessitate buildings special closet for storage of fruits and vegetables, reduces fire risk, will last a lifetime, barring abuse.

### 3. Where the Round Oak May Be Used:

Homes old or new, large or small, city or country, summer cottage, as an auxiliary to steam or hot water plants, for more economical and convenient use in spring or fall—churches—stores—halls—small factories—schools—public buildings—or wherever necessary to have a heating plant that is installed quickly, draws easily, heats rapidly, economically, saves space and is simple to operate.

### 4. Why You Are Absolutely Safe:

Your order for a Round Oak Pipeless is accepted with the understanding that unless the trained heating engineers of the manufacturers can safely guarantee it to operate efficiently in your home it will not be installed, and we will refund any money paid. Their decision will be made after careful study of conditions in each home—no guess work. This protects all concerned. This engineering service is free. Ask us for more information.

### 5. Compare the Round Oak with Stoves:

It warms all the home to an even temperature by circulating the heat, while heating stoves radiate the heat but a short distance and cannot heat evenly. With a Round Oak Pipeless there is but one fire to run, no fuel or ashes to be carried through the living rooms, nothing to "set up" or "take down" every fall and spring. Always ready for instant use. Saves time, work and expense.

### 6. Compare with Steam-Heat or Hot Water:

The Round Oak warms the home quicker—no waiting, and provides an abundant supply of ever-changing, circulating moist air, which well-informed physicians recommend as most healthful, instead of bone-dry heat. No radiators to keep clean or take up space in rooms; no hissing, pounding noises; no expensive leaks to "need fixing," requires no special care in case of you are away during freezing weather. Keeps the basement cool for the storage of fruits and vegetables.

### 7. Compare with "Hot Air" Furnaces Having Pipe and Registers to Each Room:

In a home where trained heating engineers would specify either type of air-circulating furnace as suitable, the Round Oak Pipeless has several conveniences over the pipe furnace: (1) Only one large register needed in the entire house; (2) no heatpipe damper to regulate—simply close the door of any room not to be heated; (3) takes less space in basement; (4) no loss of heat through pipes in wall or basement; (5) no heat pipes to be replaced because of rusting; (6) no need for installers to deviate from engineer's specifications, with the risk of an inefficient heating plant. Makers of the Round Oak Pipeless build their heating engineer's specifications right into the furnace at the factory, so that features vital to satisfactory heating cannot be altered or tampered with.

Your home should be examined to see if it CAN be properly warmed with the pipeless method. Not every home can be heated with this system but the Round Oak engineers only allow us to install them where they can be guaranteed a safe, sound, investment for the users. If your home is approved by the Round Oak engineers, you get a service that satisfies the most exacting. The \$2,000,000 Round Oak or—condition is back of it!

Call, write or phone today. Many plans must be seen during this period. You should call or send in your name as soon as possible—Today if you can.

## OPEN FOOTBALL SEASON, OCT. 2

Kingston High School will open the football season here on October 2, when the team of the Albany High School will meet the locals at the Athletic Field. Coach Hall is busy rounding the team into shape. There is some good material to be whipped into shape and it is expected that Kingston will place a strong team in the field against Albany.

The complete schedule for the season follows:

October 2—Albany at Kingston.  
October 9—Kingston at Albany.  
October 16—Poughkeepsie at Kingston.  
October 23—Newburgh at Kingston.  
October 30—Kingston at Hudson.  
November 6—Kingston at Poughkeepsie.  
November 13—Kingston at Newburgh.  
November 20—Hudson at Kingston.  
Thanksgiving Day—Troy at Kingston.

## MANY HUNTERS GET LICENSES

Since the first of the year City Clerk Boreman has issued 182 hunting licenses. With the opening of the hunting season this fall many local men are taking out licenses. Among those who have obtained licenses this month are: George Caddy of 36 Foxhall avenue; Kenneth Stokes, of 49 Gage street; Gus Stopski, of 212 Fourth avenue; George Barnes, of 63 Mary's avenue; Chris Bonesteel, of 151 Smith avenue; W. M. Mills, of 146 Franklin street; M. W. Ross, of 39 Johnston avenue; Frank Barnes, of Saugerties road; Joseph Mikish, of 17 Augusta street; Elmer Shoemaker, of 309 Second avenue; Arthur Davis, of 1 Murphy street; Meyer Casool, of 9 Main street; and William Hanibal, of 17 Jansen avenue.

### MALTZ CASE ARGUED.

Was Hurt While Passenger In DuBois's Auto.

Six cases were argued, Wednesday, before the Appellate division of the supreme court, at Albany, among them being one in which Ulster county parties are interested. The case was—Morris Maltz, plaintiff-appellant against J. Vernon DuBois and another, defendant-respondent. This is an action in negligence brought by the plaintiff against the defendants to recover damages for injuries suffered by reason of the alleged negligence of defendants. Plaintiff was a passenger in an automobile driven by one of the defendants near New Paltz. He was exceeding 30 miles an hour when a part of the car broke and plaintiff was thrown out and his nose and lip injured. Plaintiff had told the driver he was in no hurry and was going too fast to suit him. Argued by Henry Klein for appellant; John N. Vanderyn for respondent.

Miss May Landy, a pretty New York girl, who recently arrived from abroad with a thrilling tale of her narrow escape from death while visiting in Dublin, Ireland. Miss Landy was staying at a friend's house in the city during one of the recent Sinn Féin riots. The roof of the house was blown off and the house badly damaged by an exploding bomb thrown by the rioters.

Why Frankfurt.  
King Carl the Great (Charlemagne) was once defeated by the Saxons, and fled with his Franks to the Main. But they could find no resting place by which to escape the pursuit of their enemies. Suddenly a cart appeared and made for a spot where it crossed the river. They followed the Franks where the river was fordable. So they came across the Main, and the place has ever since been called "Frankfurt" (the ford of the Franks).

## BROKE HARDING IN AS A CUB REPORTER

When Warren G. Harding started in as a cub reporter, George N. Hinds taught him the "ropes." Hinds is now telegraph editor on the Senator's paper. He and the Republican Presidential nominee are fast friends and often "reminisce" of old reportorial days.

The dedication of the statue of Lafayette, presented to France by the Knights of Columbus, at Metz. The ceremony was attended by many notables, among them Marshal Foch, who was presented with a golden button by Supreme Knight James A. Flaherty. The photograph shows the crowd at the base of the statue.

**FRIDAY MATINEE FOR LADIES ONLY**

**THIS \$18.00 AUTOMATIC HEAT REGULATOR**

**FREE**

One of these given away absolutely free to every purchaser of the famous fuel-saving Caloric Pipeless Furnace during—

**CALORIC NATIONAL PREPARE for WINTER**

SEPTEMBER WEEK 11th TO 18th

With this regulator as part of your heating equipment, you can lie in bed on cold mornings until the house is warm.

The regulator works just like an alarm clock. In fact, it is a handsome and dependable clock with a mechanical arrangement which automatically controls the dampers on the heating plant in the basement. All you do is set the regulator for the time you want the heat turned on—the regulator does the rest.

The Caloric is the world's most successful heating plant—now saving 1/3 to 1/2 the fuel in over 100,000 homes. Our guarantee—"Your satisfaction or money back."

Don't fail to visit our store during "Caloric Prepare for Winter Week", Sept. 11th to 18th. Special Caloric exhibits every day. Tell your neighbors—"Let's all go!"

KINGSTON, N. Y.

**CALORIC**  
THE ORIGINAL PIPELESS FURNACE TRIPLE-CANNING PATENT

Note—We have with us M. J. R. Ryan, an expert from the factory, who will be glad to give his advice in regard to the proper location of Registers, the size Heater needed to give most satisfactory results, and any questions on heating that might arise.

Key of the Bastille.  
The key of the Bastille was presented to George Washington by Lafayette on his first stay in America. It is antique in shape, and hangs in the principal hall of Washington's mansion at Mount Vernon.

Tree Found in a Mine.  
Discovery has been made in the Elmore iron mine, near Tacoma, Wash., not far from the source of the Mississippi river, of the trunk and branches of a prehistoric tree in an excellent state of preservation.
